

# Welding procedure approval and welder training/qualification testing

Speciality Welds Ltd are experts to the welding industry. We assist and advise clients on all welding procedure and welder qualification standards and specifications, whether above or below the waterline.

As appointed Zurich surveyors, we offer UKAS accreditation for the testing of weldments and issue certification for welding procedure and welder qualifications. Testing standards include; ISO 15614-1/2, BSEN 287-1, ISO 9606-1/2, ASME IX, AWS, CCA chapter A8-10, ISO 13585, BS4872-1/2, ISO 24394 and/or ISO 14732. Zurich is appointed by the DTi under the PED as a Notified Body (PED0037) and is also a full CEOC and SAFed member and is accredited to; ISO/IEC 17020:2012 - Conformity assessment requirements for the operation of various types of bodies performing inspection. ISO/IEC 17025:2005 - General requirements for the competence of testing and calibration laboratories.

We also sit on the BSI welding Committee for European Normalisation (CEN) and International Standards Organisation (ISO) which means our clients get access to up-to-date information and expertise for the latest welding qualification standards and specifications.

Speciality Welds offer a wide range of welding courses in the following welding processes;

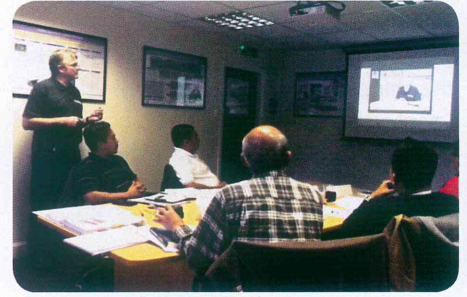

- Manual Metal Arc Welding (MMA) - 111 (wet - stick and dry plate and pipe welding)
- Metal Arc Gas -Shielded Welding (MAGS) 131/135, 136/137
- Tungsten Arc Gas-Shielded Welding (TAGS) - 141
- Oxy-Acetylene Welding - 311
- Brazing & Soldering - 91, 94
- Oxy-Fuel Gas Cutting - 8
- Arc Cutting & Gouging - 822
- Plasma Cutting - 83
- Basic Welding Safety - Comes as standard on all courses.

Courses are available for sheet, plate and pipe materials, in carbon steel, stainless steel and aluminium alloys, etc. All programmes are bespoke to meet your individual requirements and are available as single days or weekly blocks.

More difficult to weld, or exotic materials available on request.

We look forward to being of service.
